

KEMION
BANG & BONSONER

Eco-friendly de-icing products for railways and trams

De-icing and ice melting

Kemion provides solutions for snow and ice accumulation on tracks and railways, as well as for slipperiness. The **Eco-Melter RAIL** product line is specifically designed for railway environments and other applications requiring minimal material impact. Product line includes material and corrosion friendly options both in solid and liquid.

Eco-Melter RAIL products suitable for de-icing and ice melting applications, enables effective prevention of slipperiness and minimizes the effects of ice and snow in varying and demanding conditions.

Benefits of Eco-Melter RAIL products

- 100% biodegradable
- Designed for railway applications
- Excellent de-icing performance
- High frost resistance
- Low electrical conductivity as well as minimal corrosion and material impact
- Easy to apply and store

We recommend following products

Eco-Melter RAIL (liquid) is a biodegradable de-icing and ice melting solution. It is particularly well-suited for applications requiring excellent de-icing performance and minimal corrosive impact.

Eco-Melter S-RAIL (solid) is a biodegradable granule. Granules are highly effective for de-icing and melting ice and snow, performing exceptionally well even in harsh winter conditions like heavy snowfall and freezing drizzle.

Eco-Melter WIRE (liquid) is a biodegradable frost removal solution designed for clearing frost and ice from overhead wires and various cables.

Kemion Oy

Kemion Oy is a Finnish chemical company, owned by Bang & Bonsomer Group, that develops and manufactures environmentally friendly solutions for de-icing, ice melting and dust control applications. We focus on sustainable and safe solutions for the environment, providing an effective alternative to traditional road salt. Our goal is to be a leader and promote sustainable development through our operations.

We leverage our extensive practical experience to continuously improve our products and services. We are committed to working closely with customers to develop tailored solutions for various requirements and applications. We are an ISO 9001 and ISO 14001 certified company.
